

Switch Audio Recording

Professional Recording Services

All of our telephony products have one **important feature** that should be used to **maximum advantage** and that is the ability to personalise your service using **Voice Files**.

Of course, we give you the ability to record your own files and upload them to your account. You can also use our excellent **Recording Line** and record directly in to your application.

There will come a time when you feel that your company needs that little something extra and that is when you will look to getting a **professional recording** and perhaps a musical background

A professional audio file is not as expensive as you may expect. The rates depend on the length of your script and whether or not you would like background music

An audio file starts at £50.00 for up to 75 words
Suitable royalty free music tracks are £35.00 each
Audio editing (for musical tracks) is charged at £50.00 per hour

A typical telephone on hold package would include the following services: -

Voice-over- £75.00 (Script up to 150 words)
Music - £35.00
Editing - £50 (1 hour)

Total £160.00 plus VAT

Voice-over fees are incremental based on the number of words

up to 75 words	£50.00
up to 150 words	£75.00
up to 300 words	£100.00
up to 450 words	£125.00
up to 600 words	£150.00
up to 750 words	£175.00
up to 1000 words	£200.00

To order your **Audio Service** or obtain a quotation please contact our Sales Team. Our experienced advisors would be happy to assist you with your script can set you up normally within 48 hours.
